PORTO RICO THE GOAL

Gen. Miles' Expedition Has Practically Been Landed Ere This.

ADDITIONAL TROOPS BEING HURRIED TO MENACED ISLAND.

Washington, July 25, Special—Gen. Miles has no doubt effected a landing in Porto Rico ere this time, but the government has no news to that effect, owing to the fact that dispatches must be sent by boat to Cape Haytien, the nearest cable station. The plan of campaign contemplates a land attack upon San Juan, and at least two days will be consumed in the march from the point of landing to that city. The campaign, it is thought, will be a short one, as a general surrender is expected to follow the fall of the chief city. Sampson's ships will probably be on hand to assist in the taking of the city.

Carlist Uprising

London, July 25—Special—Madrid is thoroughly alarmed at the prospect of a Carlist uprising. The pretender is personally superintending the organization of his followers, and is alternately in Belgium and Switzerland. Some of his aids claim that his cause is stronger than ever before, and that when he gets ready to strike his blow will be effective. He is said to have nearly half a milion fighting men enrolled, and expects to received large accessions from the present government's army as soon as he shall have won his initial victory. These facts have much to do with the government's present aniexty to terminate the war with the United States.

Brooke For Porto Rico.

Washington, July 25---Special---The war department is using every effort to facilitate the movement of the remainder of the Porto Rico army. Gen. Brooke and staff are expectee to reach Newport News today. Most of Haines' brigade are also due there this morning. Part of his troops reached there yesterday. It is believed that the transports will reach there in time to get all the troops under way by Thursday. In addition to Gen. Brooke and staff the cruiser St. Paul will carry batteries A and C, Pennsylvania light artillery, and one regiment of Gen Grant's brigade. Brooke expects to sail tomorrow.

Gomez Promises Obedience.

Washington, July 25—Special—Gen. Gomez' assurance to the president that he will obey the orders of American military commanders in all things is taken here for what it is worth. The professions of the Cubans are distrusted here, for they have proved themselves a treacherous lot. Gomez' letter, however, will probably have the effect of extending the parole of his followers, and the order for disarming them will be held in abeyance during their good behavior.

William Squares Himself.

Washington, July 25—Special—There is much satisfaction here at the cabled assurance from Emperor William of his friendship for the United States and his renewed pledge that his government will maintain a strict neutrality in Philippine waters. While there has been little doubt as to the emperor's position, the acts of his naval commanders at Manila have given rise to much uneasiness. The emperor's note simplifies Admiral Dewey's position materially.

Will Sail Friday.

Tampa, July 25—Special—Another expedition to Porto Rico is prepared here, with orders to leave ai once. The transports to convey troops are now en route here. It is the desire of the government to have the transports ready to sail by Friday.

Fred Grant Receives Orders.

Chattanooga, July 25—Special— The Third brigade, consisting of the First and Third Kentucky and Fifth Illinois, leave here tomorrow morning, Gen. Fred Grant commanding.

Ordered to Porto Rico.

Washington, July 25—Special—First Florida, Second Georgia and Fifth Maryland volunteers are ordered to Porto Rico.

MAJ. GEN. JAMES F. WADE

HON. THEODORE ROOSEVELT, Assistant Secretary of the Navy.

A Valuable Prize.

Key West, July 25—Special—A search of the prize steamer Regulus reveals a large quantity of private mail from Americans and Spaniards in Cuba to friends in this country and Spain. The letters tell of terrible suffering, principally near Sagua L. Grand, where the Regulus landed. The cargo consisted principally of provisions, all of which was seized by Spanish soldiers. Eatables bring fabulous prices. Flour is $35 a sack, rice $75. The military refused to allow private officials to buy any part of the cargo, all of which sold for more than $200,000. It is believed this money will be found on board the vessel after a further search. An agreement was found among the ship's papers signed by the owners of the cargo whereby the latter agreed to pay the owners $50,000 in the event of capture. Although sailing under the English flag and owned by an English ffrm, the authorities claim to have evidence that she is a blockade runner and will be a prize of war.

War Board Has No News

Washington, July 25---Special---There was no meeting of the war board at the White House this morning. Sec'y. Long was with the president a short time When asked if any important naval move is to be made he said nothing was definitely decided. Nothing further has been heard from Gen. Miles. The president and his advisers believe the troops have landed.

Ask an Armistice.

London, July 25—Special—A dispatch from Madrid says the Sponish government has drawn up a message addressed to the govornment at Washington proposing an armistice for the purpose of discussing terms upon which a peace can be arranged

An Infernal Machine.

New York, July 25—Special—An infernal machine was discovered July 14 on the transport Port Victor, sailing to Tampa to take troops on board. The discovery was made by Capt. Brockey.

MR. COOPER IS APPROVED

Will Doubtless Receive the Compliment of a Renomination.

The Milwaukee correspondent of the Chicago Inter Ocean in a review of the Wisconsin congressional outlook, has this to say of the chances of Mr. Cooper:

In the First Congressional district of Wisconsin, comprising the southern counties, Congressman H. A. Cooper apparently stands a good show of being renominated and re-elected. His war speeches in congress have done him some harm in Racine and the other industrial Lake Michigan towns, but he holds his following in the country. His opponents are O. M. Pettis, of Kenosha and C. S. Osborn, of Darlington having served in congress since 1892. Mr. Cooper is practically at home in Washington, and no new man could expect the influence he is possessing. This is one of the strongest points in Mr. Cooper's favor

THEY FOUGHT OVER STRATEGY

Janesville Partisan of Schley Resents Assertions of a Critic--Question Still Open.

"Cervera was a dub," said a tall man on East Milwaukee street this morning.

"Dub, nothing!" said a shorter man jumping off a dray. "He was all right, but he went up against the hardest proposition in the country."

"Hard, nothing," said the tall man contemptuously. "If Cervera had hit Schley's fleet the first thing like that" —and he illustrated by landing a straight lead on the other man's eye —"it would have been all off."

"Yes," said the short man, "but Schley didn't let him. He swung on every ship as fast as it came out," and he showed what he meant by an artistic upper-cut and a left hand hook.

Then the two "mixed" and it took five men to pull them apart, leaving the question still unsettled.

GASOLINE STOVE EXPLODED

It Caused a Small Blaze Though Little Damage Was Done

At a few minutes before 8 o'clock last evening an alarm of fire from box 21, located at the corner of North Main street and Fourth avenue, called the department to the residence at 57 N. Bluff street, owned by the Nesbit estate and occupied by the families of Mrs. O. Davis and J. D. Craig. Gasoline leaking from a defective stove became ignited and set fire to the woodwork of the kitchen. The blaze was extinguished before the arrival of the department and the stove thrown into the yard. The fire caused but a nominal loss.

EVANSVILLE PASTOR PREACHED

Rev. O. P. Bestor in the Pulpit of the Baptist Church Yesterday.

At the Baptist church yesterday, Rev. O. P. Bestor, pastor of the church at Evansville, preached morning and evening. His morning discourse was upon "Truth; Its Sources, and How We Must Get It." It was a very interesting discourse. In the evening his subject was "How We May Be Witnesses to the Truth." On account of the hot weather there was not a very large attendance. Pastor Kempton will be away one more Sunday, but it is expected that the pulpit will be supplied.

ADVISE BARLEY GROWERS

May Get Better Prices By Waiting Till Present Stocks Exhausted.

E. P. Bacon & Co. are issuing a circular to their customers calling their attention to the large stocks of barley now on hand and urging them to stock and keep their present crops until the malting can handle it. By this means the firm thinks that a better price can be had for it and the risk and expense of storing it be obviated. The circular is for distribution to the farmers and buyers of the barley belt of the northwest.

PANDO IN A TIGHT BOX

The Spanish Commander Securely Hemmed in at Holguin.

WILL BE FORCED TO SURRENEER HIS ENTIRE ARMY ERE LONG.

Washington, July 25---Special—The capture of Nipe by the navy and of Gibara by the insurgents places Pando's army at the mercy of Gen. Shafter. Pando is at Holguin with about 15,000 men, and his retreat is completely cut off. All roads to the westward save those held by Shafter and Garcia are peactically impassable, and retreat over them would be extremely difficult. When the proper time comes Garcia will probably be given the privilege of leading the attack on Holguin for the reason that it is his native town and contains many of his warmest adherents. It is not thought possible that Pando can escape.

Must Behave Themselves.

Washington, July 25---Special---The expulsion of Scovel, the correspondent who slapped Gen. Shafter's face, from Cuba, and similar treatment of other correspondents who violate the rules laid down for their guidance, has been determined upon, Military commanders have orders to afford all proper facilities to newspaper men, but if they violate their orders they will be summarily treated. Scovel's conduct is universally condemned by respectable correspondents throughout the army.

Transports For Porto Rico

Washington, July 25—Special—Dispatches received by the War Department show that there were five transports at Newport News and one will arrive tonight, another is expected tomorrow and another Thursday. On Thursday the auxiliary cruiser, Harvard, will be also available and Saturday two more transports are due. Next week five more will reach Newport News, making fourteen available for the Porto Rico fleet. They will depart as fast as loaded.

The Spanish Program.

Santiago, July 25—Special—It is reported here that Gen. Luguo and ten thousand Spanish soldiers who have been holding Holguin have evacuated the town. If true the report indicates the intention of the Spaniards to surrender the entire east end of the island. It is probably the plan to concentrate the forces and make a determined stand in the western provinces and at Havana.

Starvation in Havana.

Key West, July 25—Special—The mortality in Havana among the working classes is fifty per cent. on acconnt of starvation. The insurgents are so active in Havana province that the plight of the city is growing daily worse, few fresh vegetables reaching the city.

Waiting to Hear From Miles.

Washington, July 25—Special—The administration is awaiting advices from Miles, hoping news will come today that the first Porto Rican expedition has reached its destination and the safe landing of troops is accomplished.

Sampson's Report.

Washington, July 25—Special—Secretary Long has completed the examination of Sampson's report of the destruction of Cervera's fleet. The document will be given to the press tonight.

Naval Station in Hawaii.

Washington, July 25—Special—The navy department is again considering the establishment of a naval station in Hawaii. Estimates are now being made of the cost.

Gen. King For Manila.

San Francisco, July 25—Special—The next expedition to Manila will probably be in command of Brig. Gen. Charles King, of Wisconsin.

Rioting in Grenada.

Paris, July 25—Special—Madrid advices say riotous demonstrations have occurred in Grenadar.

DIRECTOR OF THE CENSUS OF 1900

WISCONSIN MAN WILL HAVE CHARGE OF THE WORK.

Secretary of State Henry Casson Has Been Selected by the Congressional Delegation—The President Has Promised To Give the Place to This State.

Madison, Wis., July 25—It is authoritatively reported that Colonel Henry Casson, secretary of the state of Wisconsin, is to be made director of the next federal census.

It is understood that the Colonel has positively assurance that he will get the appointment. The position will not only pay a salary of about $6,000, but will be good for ten years and includes the disposition of a multitude of desirable jobs.

The Wisconsin Congressional delegation has been laboring unitedly for months to secure the appointment for Colonel Casson; and the fact that they have apparently succeeded causes no little satisfaction to the entire republican party in Wisconsin.

Colonel Casson is one of the best known men in Wisconsin, having been in public life here for twenty years. He will be 55 years old on the 13th of December next. He was born in Brownsville, Fayette county, Penn., and was brought West by his parents when five years of age, settling in Illinois. There he grew to manhood. At 12 years of age he entered a printing office and learned the art preservative. He and "Bob" Burdette once published a paper in Peoria, Ill., and later they worked together on the Burlington Hawkeye. Colonel Casson removed to Viroqua, Wis., in 1873, and became editor of the Censor. When "Uncle" Jerry Rusk was elected governor, Casson became his secretary, in which capacity he served during the farmer governor's three consecutive terms. Then he performed the same services for Governor W. D. Hoard. When the republicans lost control of Wisconsin in 1890 Colonel Casson again became private secretary of "Uncle Jerry," who had in the meantime been made a member of Harrison's cabinet, holding the portfolio of secretary of agriculture.

A year later Colonel Casson was appointed chief clerk of the department of agriculture, which position he held until March, 1892. Then he served as private secretary of Congressman J. W. Babcock, of Wisconsin, attending principally to his pension and other department matters. Four years ago he was elected secretary of state of Wisconsin. During his first term as secretary of state he supervised the taking of the decennial census of Wisconsin, which work was so thoroughly done as to elicit voluntary commendation from all the noted statisticians of the country.

WISCONSIN TOBACCO CENTER

Leaf Product of the State Increases in Importance Year By Year

Janesville people, who see long lines of tobacco sleighs creaking down Main street in winter, or see farmers at work in their fields these hot July days, may still fail to realize the relative importance of the state in tobacco circles.

Within forty years there has been much shifting in the tobacco producing area of the country. Prior to 1850 Virginia was the greatest tobacco producing state, the annual yield being 122,000,000 pounds. The present yield of Virginia is, approximately only 50,000,000 pounds per annum. Succeeding the civil war Kentucky took first place in tobacco and holds it with an annual yield of upward of 225,000,000 pounds. New Mexico produces the smallest crop—only 1,500 pounds. Indiana produces just about as much now as it did in 1850, but Wisconsin has increased its output from 88,000 to 20,000,000 pounds, and bids fair to rank among the high producing states. Illinois has reduced its crop about one-half, and Michigan has dropped from 122,000 pounds in 1850 to 10,000 in 1897. It was long believed that tobacco could not be produced on prairie soils, but Kansas, which produced only 20,000 pounds in 1850, now produces, approximately, 70,000 pounds, or more than three times the original production. In North Carolina and Florida there is a steady increase in the tobacco area.

OSHKOSH STRIKE MUST END

Unless Work Is Resumed Soon, Manufacturing Business Will Be Ruined.

Oshkosh, July 25—Immediately after August 1 an attempt will be made to start the six Oshkosh factories, which have been idle for ten weeks. The manufacturers virtually admit that they have settled upon this plan, and the strikers have expected it for weeks. The logic of the situation lies in the fact that the factories must start at the time specified in order to get a share of the fall trade. If they do not resume operations by August 10, they would, to a large extent, lose another season's business. As to the ability of the factories to resume, there is a variance of opinion.

The Morgan company and the Wilson-Libbey company especially are, it is said, well provided for as to help. The manufacturers say, further, that several hundred of the union men have expressed a desire to return to work and fear has been the only thing that has kept them away. This fear has been removed to a large extent and has also yielded to necessity. The proposed opening will be carried out regardless of the union, and the employes will ignore it as they have all along. Further, the mill men say that if the crowds are not sufficiently large when the mills resume work, help from outside the city will be secured as the manufacturers have waited now as long as they intend to and the strikers will have the opportunity of deciding once for all the question of work or no work in the Oshkosh factories.

On the other hand, the strikers maintain that the mills cannot start unless some basis of settlement is reached with them. They say that nearly half of the woodworkers have left the city, the major portion of whom have received permanent employment and at better wages. They say that in a desire to settle the matter they made many concessions; but that the manufacturers refused to listen to their representatives and to the committees of business men who sought to mediate for peace. They, therefore, determined some weeks ago to fight it out. They deny that there is any break in their ranks.

SUNDAY WAS A SCORCHER

One of the Hottest Days Experienced in Janesville in Many Years.

Yesterday was the hottest Sunday known in Janesville for years. The thermometer was about 90 in the coolest spots all day long, and people kept beneath their own vines and fig trees as much as possible, shunning all unnecessary clothing. The sky was anxiously scanned for signs of rain, but no signs appeared. Towards nine o'clock in the evening a breeze sprung up, and in the wee sma' hours of this morning there was a fall in the temperature of fifteen to twenty degrees. But it had reached getting-up time before the atmosphere became cool enough for sleep and people were obliged to shake the drowsiness from their eyelids before they were half rested and begin the labors of a new week.

Today's temperature is moderate and there is little complaint, but many prayed for a continuance of weather that permits people to pursue their ordinary avocations without discomfort.

COVERED HIS CENTURY RUN

Orion Sutherland Makes a Record On His Wheel Yesterday

Yesterday was a busy day for Orion Sutherland. At 12:30 a. m. he started from his East street home on his wheel and rode to Whitewater and return, making the round trip in record time. Without stopping he again went over the same route, this time going to Hebron, nine miles above Whitewater and returning, completed his century, 102 miles, at 9:30 a. m.

This little early morning exercise having been somewhat in the nature of a warming up process, he continued on his way to the Sinnissippi Golf club grounds and finished out the day at this popular game.

KILLED HIS BROTHER BY BLOW

Fatal Result of a Boxing Bout at Randolph Yesterday.

Randolph, Wis., July 25—During a friendly bout with gloves yesterday afternoon, Paul Selgman struck his brother Julius a blow in the side. The latter staggered and fell, dying almost immediately, whether from the blow or heart disease the coroner's jury was unable to determine. The dead man came here recently from Menomonee Falls. He was twenty-eight years old, and leaves a wife and child.

Water Bottles.

There is nothing better for cleaning water bottles or carafes than egg shells. Make a good soapsuds and put into the bottle with a handful of crushed eggshells and one teaspoonful of shot. Have the water hot. Shake vigorously every once in a while, while the bottle is cooling. When cold wash the bottle in hot soap suds, forcing a dry swab into the bottle, twisting it around and around until every bit of moisture is absorbed. This method will make the bottle brilliant.

FLED FROM THEIR PARENTAL HOME

THREE LITTLE WHITEWATER MAIDS GO JOURNEYING.

Come to Janesville in Search of Adventure and Find It—Go Afoot to Afton, Where They Get a Train to Beloit, But Are Captured There and Taken Home.

Marshal Eugene Cornell, of Whitewater, was in the city yesterday, having in his tender and watchful care three hardened young girls of that city, who had foolishly left the protection of their respective parental roof trees and gone out into the cold or rather hot—world determined to see the elephant of which they heard so much, in all his glory. Their plans miscarried somehow and unless all signs fail they have been restored to their fond parents and are probably at this writing being convinced of the error of their ways by the aforesaid parents, backed up by a birch rod or possibly a base ball bat. Their names were Nellie Howard, Ella Thatcher and Maud Thatcher, aged respectively 13, 14 and 15, the latter two being sisters.

Start on Their Travels

The trio left home Saturday morning and came to Janesville. Their stay here was brief, however, as they had gotten wind of the fact that their irate and unsympathetic sires had dispatched an officer to locate and gather them into the fold. There was no train out for some time, so they took to the railroad track and walked to Afton, where they caught a freight and went to Beloit. They were followed closely by Marshal Cornell, however, who, with the assistance of Marshal George Appleby, of Beloit, soon located them and just in time to catch the Dells excursion train on the St. Paul, upon which they were brought back to this city and escorted to Smith's Hotel.

They Were Slippery

The officer's troubles had just commenced, however, for while he was registering himself and charges they ran out and hid in an alley at the rear of the building. With the assistance of bystanders they were soon rounded up and locked in a room for safe keeping, where they relieved their feelings by breathing blue curses through the key hole, consigning the Whitewater guardian of the peace and the hotel keeper to the over heated annex to eternity. In the meantime Marshal Cornell had telephoned to Whitewater for a rig, and after taking dinner the party left overland for home. The girls were far from repentant. There was not a sentimentalist in the party, and all they regretted was that they did not get more of a start.

DR. HART GOES TO EUROPE

Decides On the Trip Saturday, Arranges His Business Sunday and Starts Today.

Dr. Richard J. Hart, the dentist, was sweltering in the heat on Saturday when a friend suggested that a trip to Europe would be an agreeable change. "I believe I'll go," remarked the doctor reflectively. Thereupon he set about arranging his affairs. In a few hours he had all his arrangements completed, and this morning he started for a tour of the continent. He will visit all the centers of interest before he returns, sounding the praises of the United States and the city of Janesville in London and Edinburg, singing "Yankee Doodle" in the Champs Elysee in Paris, delivering a panegyric to the American eagle from the summit of the Matterhorn, chanting "The Star Spangled Banner," Unter der Linden, and extolling the bravery of the American tars in the shadow of St. Peter's.

He will be absent several months, and if he sees anything while abroad that is worth learning he will bring it back with him.

Dr. Hart is a man who acts promptly whenever he makes up his mind to do a thing.

THEY'VE KISSED AND MADE UP

Domestic Melodrama That Has Ended Happily For the Actors

A couple prominent in the social world at Madison some time ago decided that it was no longer congenial for them together. After the smash up the lady in the case came to Janesville, where she intended to remain as far away as possible from her former loved one. In time the fair one began to see that her husband was not the only one in the wrong, and that she was happier with him than now. As a culmination of all this thinking on Saturday she determined to try once more and telegraphed him to meet her at the depot with a closed carriage The couple are now once more enjoying life under the same roof and enjoying conjugal bliss.

THE CAUSE OF TEMPERANCE

What Is Going on in the Ranks of the Good Templars.

The social which was to have been held last Tuesday evening at the home of Miss Hattie Ward, was postponed on account of the storm, but will be held this (Monday) evening, July 25. Colonel Parker, grand secretary of Wisconsin, is lieutenant colonel of the Third Regiment of Wisconsin Volunteers. He has organized a Good Templars lodge in his regiment of over two hundred members. A lodge has also been organized in the First Regiment. Letters from both officers and privates claim that those who drink beer cannot stand the temperature of the south nearly as well as those who are total abstainers. The Wisconsin Good Templar training school will be held on their grounds at Columbia Lake, one of the beautiful chain o' lakes at Waupaca, July 20 to August 9. Several from the local lodge are planning to attend.

NO WOMAN IS EXEMPT.

Regularity is a matter of importance in every woman's life. Much pain is, however, endured in the belief that it is necessary and not alarming, when in truth it is all wrong and indicates derangement that may cause serious trouble.

Excessive monthly pain itself will unsettle the nerves and make women old before their time.

The foundation of woman's health is a perfectly normal and regular performance of nature's function. The statement we print from Miss GERTRUDE SIKES, of Eldred, Pa., is echoed in every city, town and hamlet in this country. Read what she says:

"DEAR MRS. PINKHAM:—I feel like a new person since following your advice, and think it is my duty to let the public know the good your remedies have done me. My troubles were painful menstruation and leucorrhœa. I was nervous and had spells of being confused. Before using your remedies I never had any faith in patent medicines. I now wish to say that I never had anything do me so much good for painful menstruation as Lydia E. Pinkham's Vegetable Compound; also would say that your Sanative Wash has cured me of leucorrhœa. I hope these few words may help suffering women."

The present Mrs. Pinkham's experience in treating female ills is unparalleled, for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women during a single year.

All suffering women are invited to write freely to Mrs. Pinkham, at Lynn, Mass., for advice about their health.

ARE YIELDING THEIR ARMS.

Garrisons of Two Towns Surrender to Miley.

24,000 PRISONERS OF WAR.

Gen. Shafter Sends His Official Report to Washington—No Mention Made of His Alleged Misunderstanding with the Cuban Leader, Garcia.

Washington, July 26.—The war department at midnight posted the following:

Santiago, via Hayti, July 24, 1898.—Adjutant General of the Army, Washington: Lieut. Miley has returned from San Luis and Palma Soriano, where he went four days ago to receive surrender of Spanish troops.

The number surrendered was larger than Gen. Toral reported; 3,005 Spanish troops and 350 volunteer guerrillas gave up their arms and gave parole and have gone to work; 3,000 stands of arms were turned in, loaded on ox carts and started to the railroad.

Spanish troops accompanied him to San Luis and all were apparently greatly delighted at the prospects of returning home. They were on the verge of starvation and I have to send them rations tomorrow.

If the numbers keep up as they have there will be about 24,000 to ship away—nearly 12,000 here; 3,000 from San Luis, 6,000 from Guantanamo and over 2,000 at Sagua and Baracoa.

SHAFTER,
Major General Commanding.

Gen. Shafter reported by cable that the condition of the troops at Santiago was rapidly improving, and said he hoped in the course of a day or two to have them all located in comfortable camps, where they may rest and recuperate and where the sick may recover.

He is feeding 11,000 of the Spanish prisoners of war, and, although he has not yet been able to furnish them tents, this deficiency is being made good, and meanwhile their present condition is no worse in this respect than was their condition before the surrender.

The general makes no mention of the alleged letter from Garcia to himself, nor does he speak of any friction between them, whence the department has come to doubt the authenticity of published stories on these subjects.

HAVE NOT UNITED FOR PEACE.

Report from Berlin Regarding Action by the Powers Is Denied.

Berlin, Germany, July 25.—A New York World correspondent cables the statement telegraphed from here to a London newspaper that all the great powers of Europe except Great Britain had completed an arrangement the purpose of which was to prevent the annexation of the Philippine Islands to the United States is utterly devoid of foundation.

There is the best authority for asserting that, although informal communications have passed between the powers on this subject, as one of the questions raised by the war between America and Spain, no arrangement has been made or even suggested respecting it.

DEWEY ABOUT TO STRIKE.

Augusti Tells Spain the American Attack Is at Hand.

London, July 25.—A special dispatch from Madrid says Gen. Augusti, captain general of the Philippines, has telegraphed to the government as follows: "The Americans are about to attack Manila. Grave events are impending."

Dupuy De Lome Talks Peace.

Madrid, July 25.—Senor Dupuy de Lome, formerly Spanish minster to the United States, says that overtures for peace ought to have been made after the glorious fight on July 1st around Santiago, and after the destruction of Admiral Cervera's squadron, with a view to obtaining better conditions than could be secured later. If the United States refused to grant honorable conditions then the war should be continued desperately.

Fever Is of a Mild Type.

Washington, July 25.—A dispatch received by Adjt.-Gen. Corbin says that 396 new cases of fever of all classes were reported in his camp before Santiago yesterday. As the same dispatch reports only four deaths, and none of them from yellow fever, from among the hundreds of cases of fever known to exist in the camp, the war authorities are more than ever inclined to the belief that the cases of yellow fever are of a mild type.

No Yellow Fever.

Washington, July 25.—Owing to persistent reports that there was yellow fever at Tampa, notwithstanding denials by the Florida state officials, Dr. Brunner, the yellow fever specialist, who represented the marine hospital service until the outbreak of the war, was directed to make an investigation. He reports that after a close inspection of Tampa it can be stated that there is not a case of yellow fever there.

Insurgents Capture Gibara.

London, July 25.—A dispatch to the Central News from Havana says that the insurgents have captured the town of Gibara. The Spaniards made a heroic defense, but were finally compelled to evacuate the place. Six Spaniards were killed and twelve wounded. Many Cubans were killed.

Reports Two Torpedo-Boats.

London, July 25.—A dispatch to Lloyds' from Figueira, Portugal, says that two Spanish torpedo boats have arrived at that port.

MONETARY COMMISSION.

Chairman Hanna Issues to Business Men a Statement of Results.

Indianapolis, Ind., July 25.—Chairman Hugh H. Hanna of the monetary commission has prepared a statement, addressed to the business men, setting forth the results of the work of the commission during the last session of congress. He says:

"The present status of the undertaking to secure a comprehensive currency law is encouraging beyond what was expected. The bill as finally agreed upon and reported to the house has been very generally approved by almost every one supporting the effort to accomplish comprehensive monetary legislation. The passage of this bill will be the beginning of law for the best currency in the world. Of course it is possible and probable that there may be objections to the details of the bill and the change made before approved by both houses of congress, but the encouragement is so great that all business men who recognize the extraordinary opportunity are warranted in absolute unity of effort henceforth to the final successful consummation."

FEAR FOR WARNER.

Threats of Victims Alarm the Northampton Authorities.

Northampton, Mass., July 25.—The feeling against Lewis Warner, president of the Hampshire National Bank and treasurer of the Hampshire County Savings Bank of this city, captured Saturday in Louisville, charged with the embezzlement of $300,000 from the two institutions, is so bitter that the authorities have decided to bring him here secretly for fear of a demonstration against him. There are more than 5,000 individuals in this city and vicinity who lost more or less heavily through Warner's stealings. Many poor people lost all their savings in the closing of the Hampshire County bank and business men lost heavily in the failure of the national bank.

THE PRESS AND LA FOLLETTE

Monahan Not For La Follette

Editor J. G. Monahan, of the Darlington Republican, a former able ally of Robert M. La Follette, has this to say about the latter's announcement that he desires the nomination for governor:

"On Saturday last, R. M. La Follette announced his candidacy for governor and will go before the republican state convention at Milwaukee asking for the nomination.

Mr. La Follette has taken this step against the advice and counsel of his best friends, and we cannot but feel that he has made a grave mistake. His position is bound to create a factional fight in the party that may be far reaching in its effects.

Two years ago Mr. La Follette and Mr. Scofield were candidates for governor. Each made a hard, and we believe honorable effort to win and Mr. Scofield was successful, although by a narrow margin. He was elected, and has given the state a clean, honest, business-like administration, and has been absolutely impartial in making his appointments. The question, "was your delegation for or against Scofield?" has never been asked. Two years ago the delegation from Lafayette county voted solidly throughout the contest for Mr. La Follette, but during Scofield's administrative six Lafayette county men have been appointed to office, and five men from this county now hold appointive positions. This from a county that was solidly against him shows that Gov. Scofield is too big to be controlled by factional feeling, and does not use his office to club those who opposed him in convention.

The Republican has always been an ardent admirer and warm supporter of Mr. La Follette. It advocated his nomination two years ago, and hoped at the end of Mr. Scofield's second term to see him nominated and elected governor, but it cannot support him in his present position. We are not fighting La Follette, but supporting Scofield. Party precedent entitles him to a renomination, and to defeat him at this time is to cast a reflection upon his administration, that in honesty, justice, and equity, would be cruelly unjust.

The Republican believes that the thinking men of the party in this and all other counties, will take the same view of the matter, and that while a ballot will probably be necessary in the convention, it hopes to see it so overwhelmingly for Scofield that the couterie of faction makers will be overwhelmed.

Bar the Mountebanks.

In discussing the movement for "purifying politics," the Oshkosh Northwestern says: "Any man may aspire to the place [the governorship] but after all, the people will not look with favor upon the man who forces himself forward as a candidate. There is too much of dignity and responsibility connected with it to have it bestowed upon a man who selfishly, persistently, openly and flippantly demands it. It is the one honor in the state which should be bestowed by the people in their collective capacity upon the best man in the state. No mountebank should have such an honor. No man should be honored with such a nomination if he lacks dignity or self control, or the personal characteristics of a good business man. And above all no man is worthy of such an honor if he traduces the other candidate and tries to build himself up by injuring the good name of his opponent."

Why We Fight Him

Monasha Breeze—Scanning the record of Gov. Scofield closely one is forced to the conclusion that he has been courageous, fair, business-like and independent, always having in mind the state's welfare in all his acts. Why, then, do the enemies of Gov. Scofield desire his defeat in the convention? For the same reason that any good man is pursued by those who have not been able to turn him from what he believed to be a true and wise course—because his enemies could not make him act to serve their own selfish ambition.

Ex-Gov. Hoard's paper, the Fort Atkinson Union, says the LaFollette machine campaign is an "effort to establish the authority of the people in party matters and not the authority of a small ring of politicians in Milwaukee." As the LaFollette machine's Milwaukee branch is the best sample of political machine building in the state and "a small ring of politicians" —half a dozen or so—run it, the inference is that the Ex-Governor has been misled; The fact of the matter is, the LaFollette machine is running for "a small ring of politicians" exclusively and all of them want office.

The La Crosse Chronicle says: "Representative Cooper seems to be thriving on the Racine Journal's opposition. In a few more days, at the rate opposing candidates are declaring for him, he will be renominated by acclamation."

REPUBLICAN STATE CONVENTION.

Headquarters Republican State Central Committee, Milwaukee, June 15.

To the Republican Electors of Wisconsin:

By direction of the State Central committee, a convention of the republican electors of the state of Wisconsin will be held in the city of Milwaukee on Wednesday, the 17th day of August, 1898, at 12 o'clock noon, for the purpose of nominating a republican state ticket to be voted for at the general election in November next, and to transact such other business as may properly come before the convention.

The republican electors of Wisconsin are cordially invited to unite under this call in sending delegates to said state convention.

In accordance with resolution recommended by the state convention and formally adopted by the State Central committee, in electing delegates to the state convention, in counties having more than one assembly district, except Milwaukee county, the unit basis shall be the assembly district, and in such counties delegates shall be elected by assembly district conventions, and the names of the delegates so elected shall be certified to the State Central committee by the chairman and secretary thereof; in all other cases delegates shall be elected by county conventions.

Under the present basis of representation the several assembly districts in the state are entitled to one delegate for every two hundred and fifty (250) republican votes, or major part thereof, cast at the last preceding presidential election.

Special attention is hereby called to the fact that all conventions to elect delegates to the state convention must be called on a notice of not less than four weeks; all town or ward caucuses as primaries to state convention on a notice of not less than ten days, and that notice of the meeting of such convention or caucus shall be given in the usual manner.

As the State Central committee acts as the Committee on Credentials, it is requested that credentials of delegates elected, duly certified to by chairman and secretary of county or assembly district conventions, be forwarded to the secretary at Republican State Central Committee headquarters in Milwaukee, immediately upon their election; in every case giving the names in full and postoffice address.

EDWIN D. COE, Chairman.
JOHN M. EWING, Secretary.

Rock county will be entitled to 33 delegates, distributed among the assembly districts as follows: First district, 9; Second district, 11; Third district, 13.

Swedish Polar Expeditions.

Sweden will send two scientific expeditions to Spitzbergen next summer. One, under Mr. Jaderin, will try to measure a degree of longitude; the other, under Prof. Nathorst, the paleontologist, will examine the waters to the west of the islands. Prof. Nathorst has engaged the steamer Antarctic and takes a staff of seven scientific men with him. He will steam along the west coast of Spitzbergen, then northeast toward King Karl's Land and Gillisland, taking deep-sea soundings and collecting natural history specimens.

SUMMER STYLES.

Novelties Prepared For the Approach of Warm Weather.

The fondness for transparent fabrics which has prevailed all winter and has had unlimited indulgence in the direction of evening gowns, theater bodices and trimmings promises to extend through the summer, for not only does the reign of tulle, mousseline de soie and net show no signs of failing, but wash materials of the sheerest variety are shown in abundance. These will make charming warm weather gowns, and the trimming will consist of ruffles, ruchings, plaitings, baby ribbon, narrow velvet, embroidery and lace, profusely used and interspersed with knots of ribbon. Such gowns will be set off by a girdle and high collar of black satin, with a jeweled, metallic or enamel buckle and clasps, or by a long sash with floating ends.

For women whose wardrobe fund is limited, but who are obliged to have a variety of gowns for social purposes, an economical fashion is to have a guimpe for low cut, short sleeved dresses, so that the same costume may be worn to a ball or a formal afternoon reception. The guimpe consists of a close bodice of lining

GIRL'S COSTUME.

material, the upper part of which is covered and trimmed to harmonize with the gown, the sleeves being made to match.

Chenille spotted tulle, which has been employed for ball gowns during the winter and for various trimming purposes, is succeeded by chenille spotted taffeta, which is something entirely new and is used for some very effective gowns. The spots are usually of a different color from the silk ground. Chenille arabesques are also seen on light silks, and this sort of decoration is shown in a variety of motifs.

Embroidered blouses having a slight basque are now made to accompany any kind of skirt. This is a convenient and inexpensive fashion, destined to be successful.

An illustration is given which shows a pretty gown for a girl of 12 years. It is of dark green cloth, with a plain skirt and a full bodice, buttoning across with cloth buttons in front. The guimpe is of cream lace over light green silk, and a soft scarf of light green silk encircles the waist and is tied at the left side. The close cloth sleeves have a slight puff at the top. The hat is of green drawn silk trimmed with black ostrich plumes. JUDIC CHOLLET.

Elephant's Foot Delicious Food.

Only one part of the elephant is considered good to eat by the white men who hunt the big beasts and that is the first joint of the leg below the knee. To cook it, a hole three feet deep is dug in the earth and the sides are baked hard with live coals. The coals are then taken out and the elephant foot is placed in the hole, which is next covered with dirt tightly packed, after which a fire is built on top and kept burning for three hours. When thoroughly cooked, elephant's foot, instead of being strong in taste and of tough fiber, is of a delicate flavor, and so soft that it may be eaten with a spoon. The natives eat almost every part of the elephant.—Exchange.

Force of Habit.

"My friend," repeated the temperance evangelist, laying his hand affectionately on his shoulder, "we are laboring in a common cause for our own reformation and the good of mankind. Will you join us?"

"Don't care if I do!" replied Mr. Jaggway, with tears of contrition in his eyes. —Chicago Tribune.

Modest.

"Excuse me," said the clothing salesman, "but wouldn't you like to have me take the price tag off that suit for you?"

"Yes," replied Farmer Corntossel, "mebbe you'd better. Ef I was to go aroun' advertisin' what a lot o' money I paid fur them clothes, p'raps the neighbors 'ud think I was tryin' to show off."—Washington Star.

A Gentle Little Hint.

Mr. Younghusband (going on a journey)—Yes, dear; absence makes the heart grow fonder. When away, darling, I am constantly thinking of you.

Mrs. Younghusband—And I of you, love. Not a day passes but I'm wondering what little present you will bring me home.—Tit-Bits.

A Question of Knowledge.

Her Adorer—May I marry your daughter, sir?

Her Father—What do you want to marry for? You don't know when you're well off.

Her Adorer—No, perhaps not; but I know when you're well off.—N. Y. Truth.

Surprising.

The Young Kentuckian—Father, little Jack Horner is the most ignorant boy in our class.

Col. Oldbrand—Is he?

The Young Kentuckian—Yes, indeed! The teacher asked to-day how many gallons in a barrel, and he didn't know. —Puck.

Cruel.

"Yes," said Miss Passeigh. "I enjoy the society of Mr. Airylad. He keeps me interested. He is always saying something that one never hears from anybody else."

"Really!" rejoined Miss Cayenne. "Has he been proposing to you, too?"—Washington Star.

A POPULAR MISTAKE

Regarding Remedies for Dyspepsia and Indigestion.

The national disease of Americans is indigestion, or in its chronic form, dyspepsia, and for the very reason that it is so common many people neglect taking proper treatment for what they consider trifling stomach trouble, when, as a matter of fact, indigestion lays the foundation for many incurable diseases. No person with a vigorous, healthy stomach will fall a victim to consumption. Many kidney diseases and heart troubles date their beginning from poor digestion; thin, nervous people are really so because their stomachs are out of gear; weary, languid, faded out women owe their condition to imperfect digestion.

When nearly every person you meet is afflicted with weak igestion it is not surprising that nearly every secret patent medicine on the market claims to be a cure for dyspepsia, as well as a score of other troubles, when, in fact, as Dr. Werthier says, there is but one genuine dyspepsia cure which is perfectly safe and reliable, and moreover, this remedy is not a patent medicine, but it is a scientific combination of pure pepsin (free from animal matter), vegetable essences, fruit salts and bismuth. It is sold by druggists under name of Stuart's Dyspepsia Tablets. No extravagant claims are made for them, but for indigestion or any stomach trouble, Stuart's Dyspepsia Tablets are far ahead of any remedy yet discovered. They act on the food eaten, no dieting is necessary, simply eat all the wholesome food you want and these tablets will digest it. A cure results, because all the stomach needs is a rest, which Stuart's Dyspepsia Tablets give by doing the work of digestion.

Druggists sell these tablets at 50 cts. per package. Circulars and testimonials sent free by addressing Stuart Co., chemists, Marshall, Mich.

WORK OF CHRISTIAN ENDEAVOR SOCIETY

REV. PENCE SPEAKS OF NASHVILLE CONVENTION.

Tells What the Organization Has Accomplished in the Field of Home Missions—Its Usefulness Increasing with Each Year of Its Existence.

At the Presbyterian church yesterday morning a large audience listened to Rev. E. H. Pence's plea for missions, from the text, "To the poor the gospel is preached." It was at this time more especiall on the subject of home missions, and the offering was for that cause.

The evening Christian Endeavor service was a joint meeting of the Congregational and Presbyterian societies. The regular evening service in the auditorium was given over to the report of the Nashville convention, to which Mr. Pence was a delegate from the Presbyterian society. The pulpit was decorated in red and white, the Nasnville colors and special C. E music was used. Mr. Pence's report was intensely interesting, not only to the Christian Endeavorers present from the various churches but also to outsiders.

Mr. Pence spoke of the great hospitality of the Southern people and that they had prepared for an immense crowd. But, though this convention was the smallest in number that has been held for years, only seven or eight thousand being registered, yet it is to be the best convention yet held in the depth of spirituality and patriotism shown. He spoke of the welding together of the blue and the gray, the black and the white, by this and similar conventions.

Secretary John Willis Baer's report was given much prominence, and disclosed the fact that there are now in the United States 41,322 Christian Endeavor societies, Pennsylvania leading with 3,070. England has 4,047, and the number of societies in such countries as India, China, Africa, etc., would surprise one who had not followed the Christian Endeavor movement. Russia is the only country where there is not a single Christian Endeavor society. The total enrollment of members in all the Christian Endeavor societies in the world is now 3,250,000. Mr. Pence mentioned that there are seventeen societies in the United States army and volunteer camps and 110 societies in the United States navy and merchant ships. And in prisons, almshouses, colleges, among the traveling men and in many other places there are many Christian Endeavor societies established.

Presbyterian Endeavorers are proud of the fact that we lead in numbers in the United States, though in England the Baptists are at the head and in Canada the Methodists.

During the year, 3,000 societies have given a sum total of $423,000 to mission and boards and other benevolent objects. There are now 10,300 members in the "Truth Legion," who have consecrated at least one-tenth of their income to the Lord's work.

The "Quiet Hour" now numbers 1000 "comrades," and much specific work is being done by various societies, from paying the church coal bills to supporting a missionary family in Alaska.

President Francis E. Clark's address was on "Fruit Bearing." He spoke of the seed and the soil necessary, and named twelve kinds of fruit borne by Christian Endeavor societies in the past, and also admonished Endeavorers everywhere to strive to bear more fruit in future, for the church, the nation and the world.

Mr. Pence made special mention of several addresses, among them that of Dr. John H. Elliott, of Rochester, N. Y., Dr. Tennis S. Hamilton, of Washington, D. C., Dr. Howard Agnew Johnston, Chicago, and Dr. M. Rhodes, of St. Louis.

But time will not permit a more extended notice of these fine addresses, nor of the grand work of Dr. J. Wilbur Chapman, of Philadelphia, in the "Quiet Hour" services in the gospel tabernacle.

Mr. Pence's modesty prevented his saying anything about his own part on the program, but the Presbyterian Endeavorers are proud of the fact that their delegate was not only seen but heard, and also appreciated at the great convention. The next convention is to be held at Detroit.

HELD A PATRIOTIC MEETING

Y. M. C. A. Gathering Was In the Interests of the Soldiers.

In spite of the heat an enthusiastic meeting was held yesterday in the Y. M. C. A. building, about three hundred and forty turning out. As each person came in at the door a small souvenir flag was pinned upon him. The promised letter by Dr. Joe Whiting could not get here in time for the meeting, but very interesting ones were read from Col. Schadel, James Howarth, of Clinton, and Neil Lewis. J. M. Whitehead then gave an interesting talk on the Y. M. C. A. work and read a letter from State Secretary Anderson about that branch of the work in Camp Douglas. Music was furnished by the Y. M. C. A. band, and a collection taken up to advance the Y. M. C. A. work in the camp of the Wisconsin boy at Jacksonville.

MRS. SCHOOLCRAFT HAS PASSED AWAY

DROPSY AND HEART TROUBLE THE CAUSE.

Had Been Ill Since Christmas, and Near Death Several Times—Property Passes to Her Son, Robert Ashton, and Her Daughter, Mrs. William Pfennig.

Mrs. George Schoolcraft died at her home on the Harmony road just east of the city, Sunday afternoon at 4 o'clock. She had been sick since Christmas of dropsy and heart trouble.

Many will recall Mrs. Schoolcraft as Mrs. Matthew Ashton. She was staunch in support of her husband during the trial and showed much firmness and strength. After the death of her husband she came to this city and bought the Bagor homestead. Some time ago she married George Schoolcraft, who had been a prominent factor in the case. Of late, differences had arisen regarding business matters and a month ago there was a separation.

Mrs. Schoolcraft has been near death several times and it was while she was supposed to be dying at eleven o'clock at night that her daughter, Miss Bessie Ashton was married to William Pfennig.

In the settlement of the Stone estate Mrs. Schoolcraft received a substantial share of the property and provision was also made for her daughter, now Mrs. William Pfennig and her son, Robert Ashton. The money allotted to the children is out at interest until they become of age.

Mrs. Schoolcraft was forty two years of age and was born in Canada, coming to Rock county with her husband from the province of Quebec.

Mary Jane Schoolcraft was born Oct. 23, 1857, in Canada, her maiden name being Mary Jane Crawford. She was married to Robert M. Ashton in 1879, and by him had two children, Bessie A., wife of W. M. Pfennig and Robert M. Ashton. She came to Janesville about twelve years ago. Subsequent to her arrival here having become a widow, she was married to Mr. Schoolcraft.

The funeral will take place on Wednesday at 2 p. m. from the late home of the deceased, Rev. E. H. Pence, officiating.

E. D. Williams

The funeral of E. D. Williams, who died on Saturday from injuries received at the Roscoe curve on the Chicago & Northwestern railroad some time since, will take place tomorrow (Tuesday) afternoon at 2:30 o'clock from the home of his grandmother, Mrs. Randall Williams, No. 8 Cherry street. The interment will be in Oak Hill cemetery.

Mrs. Anna Shurden

Mrs. Ann Shurden, widow of the late John Shurden, died at her home No. 112 Caroline street, on Saturday evening aged about 70 years. She was an old resident of Janesville and leaves three children, Mrs. Peter Thompson, John A. Shurden and Miss Nettie Shurden, all residents of this city.

The funeral will be held from the family residence at 3 p. m, Tuesday, July 26.

Cloudy Philosophy.

Cleveland Plain Dealer: A young colored philosopher was employed in one of our stores at a salary of $3.50 a week. He told his employer one morning that he was going to leave, having got a better place. "A better place?" echoed his employer; "what wages are you to get?" "Three dollars a week." "But that is not so much as you get here." "No," said the boy; "but then it's better to do less and not get so much than to do more and not get enough."

GOT TOO MUCH CLAY IN CRUSHED STONE

COMPLAINT ON NORTH MAIN STREET PAVEMENT.

Meeting of the Highway Committee Called To Consider the Matter, But the Motion to Reject is Not Carried—The Question Will Be Raised Again.

The stone furnished for macadamizing North Main street has been far from satisfactory to part of the highway and bridge committee. A year ago there was much complaint over the quality of stone bought by the city, it will be remembered. The assertion was made that the city's contract was so framed that clay, gravel and loose scrapings were accepted at the price of clean stone. The question of buying Baraboo stone was raised but local quarrymen insisted that stone fully as good for street purposes could be had here if the city specified what was wanted.

The stone on North Main street costs the city forty cents a cubic yard. Last week the attention of the committee was called to the fact that the small stone supplied for top dressing had a liberal proportion of clay and was not clean and bright. The committee was called together and a motion was made to reject the stone. Alderman Peters was outspoken in his protest about having such stone spread on Second ward streets; but the matter was closed up in spite of his opposition. The question will be raised again when the bills are presented.

The Air of the Sea Shore.

In order to ascertain whether air of the seashore contains salt in any appreciable quantity, a French scientist has made a series of experiments. By means of these he proved that in a dead calm seashore air has no salt; it is only when there are high winds from the sea that there is salt in the atmosphere. In high winds sea spray is carried into the atmosphere, where it is diffused into fine particles, and holds the salt for a time in the damp air; but as soon as the wind subsides, the salt, being heavier than the atmosphere, settles. To receive, therefore, the benefit from salt air, it is necessary to go where winds are continually blowing. It has been demonstrated that windy localities by the sea are very much more invigorating than those where there are continuous calms, but heretofore the reason of this has not been made clear.

QUEBEC CONFERENCE.

Subjects of Interest to the United States and Great Britain.

Ottawa, Ont., July 25.—It is understood that the British government and the government of the United States have finally decided upon subjects to come up for consideration at the conference in Quebec in August. The subjects are: Atlantic and Pacific coast fisheries and fisheries in inland waters contiguous to frontier; fur seals in Behring sea and North Pacific ocean; Alaskan-Canadian boundary; alien labor laws; transportation of merchandise in bond through United States and Canada; naval vessels on the lakes; mining rights of citizens of one country within the territory of the other; reciprocity of trade; conveyance of persons in custody of officers of one country through the territory of the other.

Six Out of Eight Badly Hurt.

Brazil, Ind., July 25.—A carriage containing a picnic party composed of Patrick Mooney, civil engineer for the Brazil Block Coal company, his wife and five children, and Miss Lena McDonald, was struck by a wrecking train on the Chicago & Eastern Illinois railroad north of here Sunday. Miss McDonald and Miss Hester Mooney were fatally injured. Their skulls were fractured and they were injured internally. Mooney, his wife and two of his other children received severe wounds, the extent of which cannot yet be ascertained.

Earthquake Ruin in Chile.

Valparaiso, Chile, July 25.—A violent shock of earthquake lasting a minute was felt last night at Concepcion, capital of the Chilean province of that name, and at Talcahuano, on the Bay of Concepcion, eight miles distant from Concepcion city. Many houses were destroyed and the telegraph and electric light wires were severed. The inhabitants were terrified and fled from their homes, spending the night in the open.

To Test Indiana Anti-Trust Law.

Anderson, Ind., July 25.—Gas-belt labor organizations and strikers have taken steps to ascertain whether the new Indiana anti-trust laws are of any avail. The wire-nail trust's action in shutting down and nailing up its plants because the men would not accept wage reductions ranging as high as 40 per cent affords an opportunity to test the law. Gov. Mount will be asked to begin proceedings.

Disappearance of M. Zola.

London, July 25.—A New York World correspondent cables that the Daily Chronicle states that Zola has been staying for the last few days at a leading London hotel under an assumed name with two male friends. He was joined by Mme. Zola on Saturday afternoon, and then left. His destination is kept secret, as Zola does not wish to throw off his incognito until legally advised to do so.

One Killed and Five Hurt.

Cleveland, O., July 26.—One man was killed and several were injured Sunday while at work on a sewer near Edgewater park. The men were down in the sewer trench, when the trestle on which the car hauls away the dirt fell, crashing down upon the workmen. Nobody has been able to explain why the trestle fell. It came down without any warning.

Fire Destroys Car Barns.

Pittsburg, July 25.—At an early hour Sunday the car barn of the Consolidated Traction company at Frankstown and Pennsylvania avenues was completely gutted by fire, entailing a loss of about $175,000, well covered by insurance. The flames originated in a mysterious manner in the paintshop, and before the employes and firemen could clear the barn thirty-six of the fifty cars in the building were destroyed. Nothing but the walls of the building remain.

Garcia Did Not Write Letter.

Santiago de Cuba, July 25.—It now turns out that the letter alleged to have been addressed by Gen. Garcia to Gen. Shafter, complaining of the treatment accorded the Cubans and advising the American commander of the Cuban leader's resignation, was prepared by a newspaper correspondent named Arms, who has been acting on the staff of Gen. Castillo. It is not clear that Gen. Garcia ever saw the letter.

Fever Experts to Join Shafter.

Miami, Fla., July 25.—The medical force at present here will contribute two yellow-fever experts to the Santiago staff, called for by Surgeon-General Sternberg, and today Drs. J. R. Tackett, ex-commissioner to Havana to inquire into the cause of the fever there, and George A. McHenry will leave here to report to Maj.-Gen. Shafter. They will proceed via Tampa.

Murat Halstead Is Better.

Cincinnati, July 25.—The Commercial Tribune prints a telegram from Robert Halstead in New York, conveying the latest intelligence that his father, Murat Halstead, is convalescing at Honolulu, that the fever by which he was detained there was mild and that he will shortly resume his trip to the Philippines and perform the duties of his mission to those islands.

Suffer from Drouth.

Terre Haute, Ind., July 25.—Reports gathered from a number of places in the Wabash valley say that there is beginning to be actual suffering among the stock from the drouth. Field work is almost stifling, corn is beginning to depreciate and the roadways are so thickly laid with dust that in many localities it is impossible to haul full loads.

Federation to Meet in September.

Terre Haute, Ind., July 25.—The executive committee of the State Federation of Labor has decided to hold the annual convention in this city, and the dates selected are Sept. 27, 28 and 29. The purpose in holding the convention here is to bring the miners' organization into the federation, this city being a central point in the coal field.

To Seize the Pelew Group.

Washington, July 25.—It is said that the monitor Monterey has instructions to proceed to an island in the Pelew group and hoist the American flag, after which she will proceed to Manila, joining Admiral Dewey the first week in August.

Report on Scovel Incident.

Washington, July 25.—Secretary Alger has received from Major General Shafter an official report regarding the banishment from Santiago of Sylvester Scovel and the correspondents of the Journal.

Will Send 7,000 Next Week.

Santiago de Cuba, July 25.—After a conference between Gen. Shafter and Gen. Toral it was decided to send 7,000 Spanish prisoners to Spain next week.

Athletes March in Germany.

Hamburg, July 25.—The German international gymnastic festival began Sunday with 31,000 men in the procession. Americans, Belgians, British, Hungarians, Russians, Roumanians, Swiss, Austrians and Italians participated and were vociferously cheered. The official buildings were profusely decorated with green flags. Bismarck sent a wreath with the motto, "Mens Sana in Corpore Sano." The burgomaster welcomed the athletes in a masterly speech.

German Ship Fired On.

St. Thomas, July 25.—The German steamer Croatia, which arrived here Sunday, reports that it was fired upon three times last night about eight miles from San Juan de Porto Rico by a ship said to form part of the American invading squadron. The Croatia was boarded by an officer understood to be from the United States cruiser New York. It was allowed to proceed to St. Thomas. The Croatia had no intention of entering San Juan.

Caution About War Taxes.

Terre Haute, Ind., July 25.—Collector of Internal Revenue Henry has received the following telegram from Commissioner Scott: "Caution new special tax payers, including bankers, concerning 50 per cent penalties."

This is taken as a final warning by the government authorities that there will be no further indulgence. Collector Henry telegraphed the warning to all places in the district where there are bankers, brokers, manufacturers, and dealers in cigars, tobacco, theaters, billiard-rooms and bowling alleys.

SPEAK OUT

The Search Light of Publicity Is Pleasing Janesville People

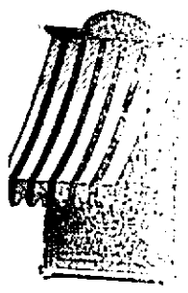

Publicity is what the people want
Let the people speak on the subject
There has been too much claim, to little proof.
Claims made by strangers is not proof.
There is only one kind of proof for a Janesville citizen.
That is the experience of people we know.
When friends and neighbors endorse,
Make public statement of their case
There can be no question about such evidence.
This is the convincing proof we have,
Which backs every box of Doan's Kidney Pills:
No other kidney pills, no other kidney remedy
Can produce such proof.
Here is one case of the many we have:

Mr. E. Dillenback, of 126 Milton Ave, retired farmer, says: "My wife was troubled with kidney complaint for four or five years, and complained of pains in the small of the back in the region of the kidneys. The symptoms all indicated that the kidneys were deranged, and the doctors who treated her said that those organs caused the trouble. As she did not get any better we thought Doan's Kidney Pills might give her relief; and procuring them at the Janesville Co's. store, I had her use the remedy. It did for her all that could be expected and did her a great deal of good. We can recommend Doan's Kidney Pills and you can use our names as saying what has been stated above."

Doan's Kidney Pills for sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

...LATE NEWS BY TELEGRAPH...

THE EMPEROR IS FRIENDLY.

Germany's Ruler Writes to President McKinley.

LETTER NOT MADE PUBLIC.

No Fear of Serious Complications at Manila Is Felt by the Cabinet—German Firms May Claim Indemnity from the United States.

Washington, July 25.—President McKinley has received a message from Emperor William of Germany which is understood to be of a highly gratifying character, in view of the disquieting rumors of German action at Manila.

The message was communicated to the president last Friday by the German ambassador. It was read to the cabinet, and was considered to be of such importance that its tenor has been guarded with unusual care.

All that is known of it is that it was satisfactory, and leaves the impression that the situation at Manila, as far as the Germans are concerned, may be left to Admiral Von Diedrichs and Admiral Dewey, without the necessity of the German or the United States governments taking up the case in mutual representations.

London, July 25.—The Berlin correspondent of the Daily News says:

"According to a dispatch from Washington the interview between President McKinley and the German ambassador, Dr. Von Holleben, was very cordial, the latter assuring the president of the friendly feeling of Emperor William and Germany toward the United States. It is said that Dr. Von Holleben conveyed Emperor William's desire for an amicable statement of America's intentions regarding the Philippines. It is not known here whether Mr. McKinley responded.

"The German firms at Manila have decided to petition the government again to obtain from the United States indemnity for their losses.

"They wanted the British traders to join in the appeal, but the latter received a hint from London not to join, as Lord Salisbury had already received favorable assurances from Washington."

PRAISES THE ARMY.

Major-General Shafter Reviews the Events Leading to the Fall of Santiago.

Santiago, Cuba, July 25.—Following is Maj.-Gen. Shafter's order just published:

"Headquarters United States Troops in Cuba, Santiago de Cuba, July 19.—General order No. 26:

"The successful accomplishment of the campaign against Santiago resulting in its downfall and the surrender of the Spanish forces and the capture of large amounts of military stores; together with the destruction of the entire Spanish fleet in the harbor, which, upon the investment of the city, was forced to leave, is one of which this army can well be proud. This has been accomplished through the heroic deeds of the army, and to its officers and men the major-general commanding offers his sincere thanks for their endurance of hardships heretofore unknown in the American army. The work you have accomplished may well appeal to the pride of your countrymen, and has been rivaled upon few occasions in the world's history. Landing upon an unknown coast, you faced dangers in disembarking and overcame obstacles that, even in looking back, seem insurmountable.

"Seizing, with the assistance of the navy, the towns of Baiquiri and Siboney, you pushed boldly forth, gallantly driving back the enemy's outpost in the engagement of La Quasina, and completed the concentration of the enemy near Sevilla, in sight of the Spanish stronghold at Santiago de Cuba. The outlook from Sevilla was one that might well have appalled the stoutest heart. Behind you ran a narrow road, made well-nigh impassable by rains, while to the front you looked out upon high foothills covered with a dense tropical growth, which could only be traversed by bridle paths terminating within range of the enemy's guns.

"Nothing deterred, you responded eagerly to the order to close upon the foe, and, attacking at Caney and San Juan, drove him from work to work until he took refuge within his last and strongest intrenchments, immediately surrounding the city.

"Despite the fierce glare of a southern sun and rains that fell in torrents, you vallantly withstood his attempts to drive you from the position your valor had won. Holding in your vise-like grip the army opposed to you, after seventeen days of battle and siege, you were rewarded by the surrender of nearly 24,000 prisoners, 12,000 being those in your immediate front, and others scattered in the various towns of eastern Cuba, freeing completely the eastern part of the island from Spanish troops.

"This was not done without great sacrifices. The death of 230 gallant soldiers and the wounding of 1,284 others, shows but too plainly the fierce contest in which you were engaged. The few reported missing are undoubtedly among the dead; as no prisoners were lost.

"For those who have fallen in battle with you, the commanding general sorrows, and with you will ever cherish their memory. [illegible] devotion to duty sets a high example of courage and patriotism to our fellow-countrymen. All who have participated in the campaign, battle and siege of Santiago de Cuba will recall with pride the grand deeds accomplished and will hold one another dear for having shared the sufferings, hardships and triumphs together. All may well feel proud to inscribe on their banners the name of Santiago de Cuba.

"By command of
MAJ.-GEN. SHAFTER.
"E. J. M'CLERNAND, Assistant Adjutant-General."

SCHLEY KEPT THE LOG.

Interesting Account of the Voyage of Cervera's Fleet.

Guantanamo Bay, July 25.—When Admiral Cervera and the other officers of the fleet of Spain were about to sail on the St. Louis as prisoners of war it was discovered by Flag Lieut. James H. Sears that the officers of the Cristobal Colon had their log books with them. He reported the fact to Commodore Schley, who at once ordered them seized.

The second in command, Adolphus Contreros, capataine de frigate, came aboard the Brooklyn and asked that they be returned as they were the only records saved. Commodore Schley said: "I will turn them over to my government for information."

Contreros stormed and pleaded and finally Commodore Schley lost his temper, as much as he ever does—and that is little—and said: "I do not see that you are entitled to any consideration at all. You sunk your ships after you had surrendered. You ruined your guns, and did everything that a dishonorable enemy could think of. I shall hold your log."

The story told by the log book is an interesting one. The minute details, as translated from the daily record, constitutes a complete story of the movements of Admiral Cervera's fleet from the time it left Spain to the memorable day of destruction.

START FOR SPAIN.

Don Carlos, Wife and Suite Have Left Belgium.

Brussels, July 25.—Don Carlos, the pretender to the Spanish throne, and his wife and suite left this city Saturday night, ostensibly for Geneva. It is believed, however, that their destination is the Franco-Spanish frontier, whither they are going in anticipation of an early Carlist rising in Spain.

His followers, it is said, have succeeded in depositing large quantities of arms in frontier provinces, and are only waiting for the opportunity to act, which, they believe, is not far away.

There are many indications that the Carlists are determined to take the step, and that they are well prepared, having strong organizations and improved weapons.

Don Carlos' leaders are believed to be waiting for him on the frontier. Enthusiasm among them is growing.

CAVALRY FOR MILES.

Five Troops Sail to Reinforce the Commander-in-Chief.

Washington, July 25.—Five troops of cavalry at Camp Alger, Va., have been ordered to proceed to Newport News for embarkation on transports for Porto Rico to reinforce Gen. Miles. They will leave, if practicable, with Gen. Haines' brigade.

The troops sent are all famous ones in their section, the list being troops A and C of New York cavalry, the Governor's troop, Sheridan's troop and the Philadelphia City troop of Pennsylvania.

Troops to Go to the Mountains.

Tampa, Fla., July 25.—An officer here Sunday said he had learned from a reliable source that the army at Santiago would be brought back to the United States as soon as the boats could get them here, and that they were to be placed in the mountains of North Carolina, where they could recuperate, and let the yellow fever run its course. He said the fever was so bad in the army that this was considered the best way to handle it. Besides this he said the men would be greatly benefited by a month in the mountains, after which they could be carried to Puerto Rico, and later used before Havana, and would be like a new army. He believed that an effort was thus being made to get as much out of the present army as possible without taking out any more of the volunteer regiments now under arms.

Plans to Raise the Colon.

Washington, July 25.—Lieutenant Hobson came over from New York Saturday night to Washington and had a long conference to-day with Assistant Secretary Allen, Captain Bradford and several other officers of the navy department regarding the raising of the Spanish cruiser Cristobal Colon. The lieutenant succeeded while in New York in arranging with the Merritt & Chapman Wrecking company for the execution of the plans he had prepared for saving the vessels.

Start for the Front.

Chattanooga, Tenn., July 25.—The only movement Sunday in connection with the Porto Rican expedition was the departure for Newport News of four batteries of light artillery as follows: Battery A of Missouri, Battery A of Illinois, Battery B of Pennsylvania. The Twenty-seventh Indiana battery. Each of the four batteries had six guns, 100 horses and mules and from 140 to 175 officers and men.

TO ATTACK HAVANA IN FORCE

War Department Is Making Elaborate Preparations.

MILES WILL LEAD THE ARMY.

One Hundred and Fifty Thousand Troops Will Be in the Field When the Capture of the Cuban Capital Is Decided On by the Washington Authorities.

Washington, July 25.—"General Shafter and his Fifth corps will take the field against Havana in the fall. Until then they will rest in the United States. As soon as the Spanish prisoners are well out of the way General Shafter, with the whole Fifth corps, will be ordered back to the United States, perhaps to Montauk, L. I., or some such suitable place, where they will rest and recuperate, so as to be ready for the campaign in the fall against Havana."

This statement was made by one of the trusted counselors of the president. The statement was further made that not one of the regiments now in Santiago would be sent to Porto Rico; that it was thought by the administration that in all of them there was some danger of fever infection. But General Shafter will remain until the Spanish prisoners are disposed of, according to the present plans of the government.

General Miles as commander-in-chief, aided by Generals Shafter, Brooke, Lee and Graham, with a combined force of 150,000 men, are to take the field against Havana in the fall. Meanwhile Shafter's men will be recalled to the United States for recuperation, three regiments from Tampa going to Santiago to take their place, in company with the immunes now there.

NO NEWS FROM MILES.

Washington Gets No Word from the Commander of the Troops.

Washington, July 25.—It was said at the war department late Sunday that no news can be expected from any official source as to General Miles' movements until to-night at the earliest. It is calculated that he has arrived at the point on the coast of Porto Rico selected as the rendezvous for all the vessels of the expedition.

Whether or not he will undertake to make a landing in advance of the arrival of the whole expedition probably will depend entirely upon conditions as he finds them. Should there be no Spanish force, or at least an inconsiderable one, on the coast the troops will be landed to relieve them from the disastrous effects of being confined closely on shipboard under a tropical sun.

The general has with him sufficient artillery to hold any position he may choose to occupy, supplemented as this artillery will be by the guns of his naval convoy. Meanwhile the department is making every effort to hurry along the remainder of the expedition.

Spanish Captives Sent Home.

New York, July 25.—The British steamship Hesperia of the Anchor line sailed from the Union stores at the foot of Baltic street, Brooklyn, for Gibraltar, Sunday afternoon, with 237 Spanish sailors on board. Of this number forty-seven were captured on the Spanish steamships Pedro and Guido, and the others were on two sailing vessels captured off Cuba. Among the passengers were four Spanish captains, who had first-class accommodations. The Austrian consul received $5,000 from the Spanish government to pay for the passage of the prisoners.

Why Dr. Gulteras Resigned.

Santiago de Cuba, July 25.—Dr. Gulteras, the yellow-fever expert, who has resigned from the Red Cross and started for the United States, took the step because there were unfavorable comments on his work among members of the society.
